SKYPROtech

Skyprotech was born during a research project called Airline Uniforms of the Future which gathered a blend of the best textile researchers, textile industry experts and Skypro team to develop a set of fabrics prepared for the Airline Industry.

Because the airline industry is so demanding we organize a full catalogue of innovative fabrics, fully tested to bring a complete collection of technologies to provide airline uniforms reliable throughout the time, tested for toxicity and designed to be comfortable every day, using our functional design approach.

SKYPRO offers your airline the standard for uniforms, ensuring that all our fabric collection ensures the right choice for your airline, fabrics with the necessary behaviors to support an intensive usage for a long time in the best comfort. After all SKYPRO exists to care of crews.

Airline Uniforms of the Future is a SKYPRO programme which began in 2015. Our single goal is to create the world's best-in-class solution for airline uniforms.

SKYPRO has combined the best European talent in textiles with their deep know-how of the aviation industry, which allows us to create innovative products perfect for Airline professionals and develop unique collections of fabrics to make the future of professional airline uniforms.

The SKYPRO expert team encompasses fashion designers, materials specialists, researchers, product developers and quality controllers, to ensure all the necessary capabilities are incorporated.

Global Airline Uniform Expert Management.

SKYPRO aims to be the no. 1 company delivering airline uniforms worldwide. Airlines' business is not to care for their uniforms and that's why SKYPRO cares for its crews as a reliable expert in Design, Production and Delivery of your Uniforms from head to toe.

We take care of your airline's whole uniform world providing services like:

- Consultancy
- Uniform Design
- Fabric development
- Technical Dossiers, per garment
- Fabric SKYPRO collection
- Pattern Making
- Uniform Production
- Stock Management
- Logistic Management
- Customer Service
- Uniform digital transformation

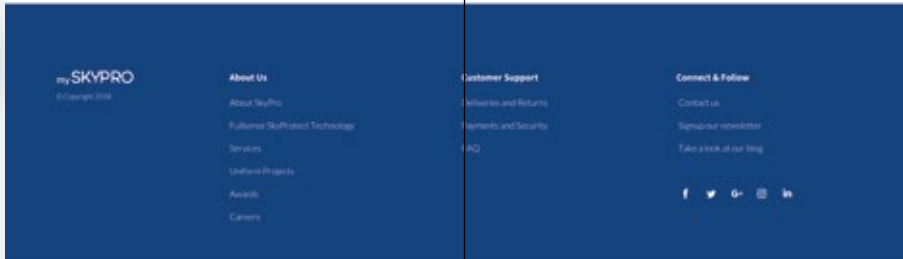

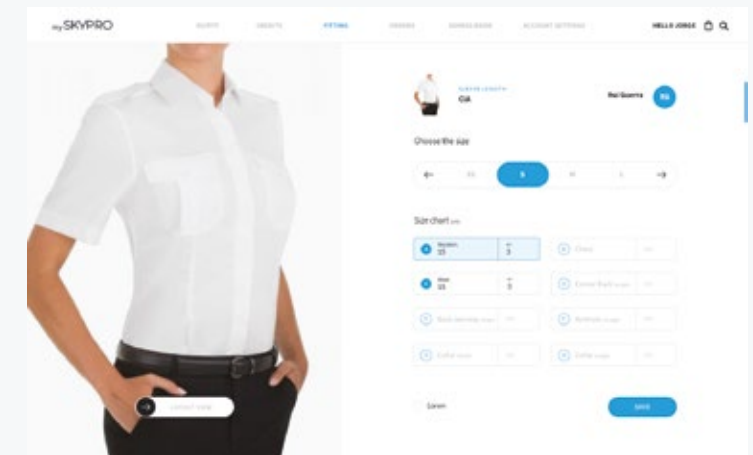

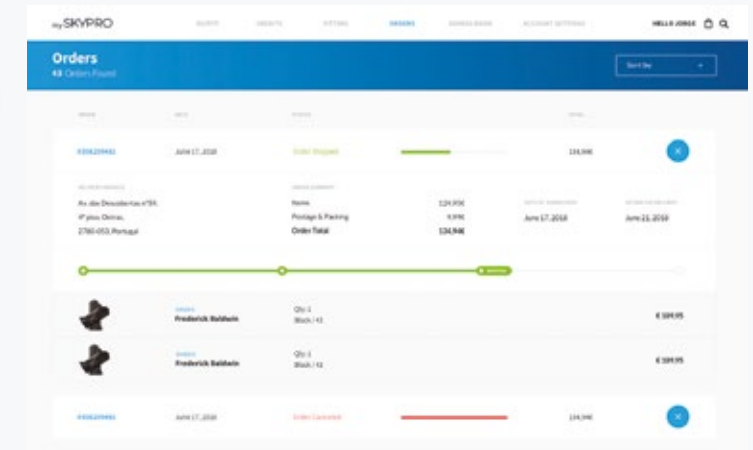

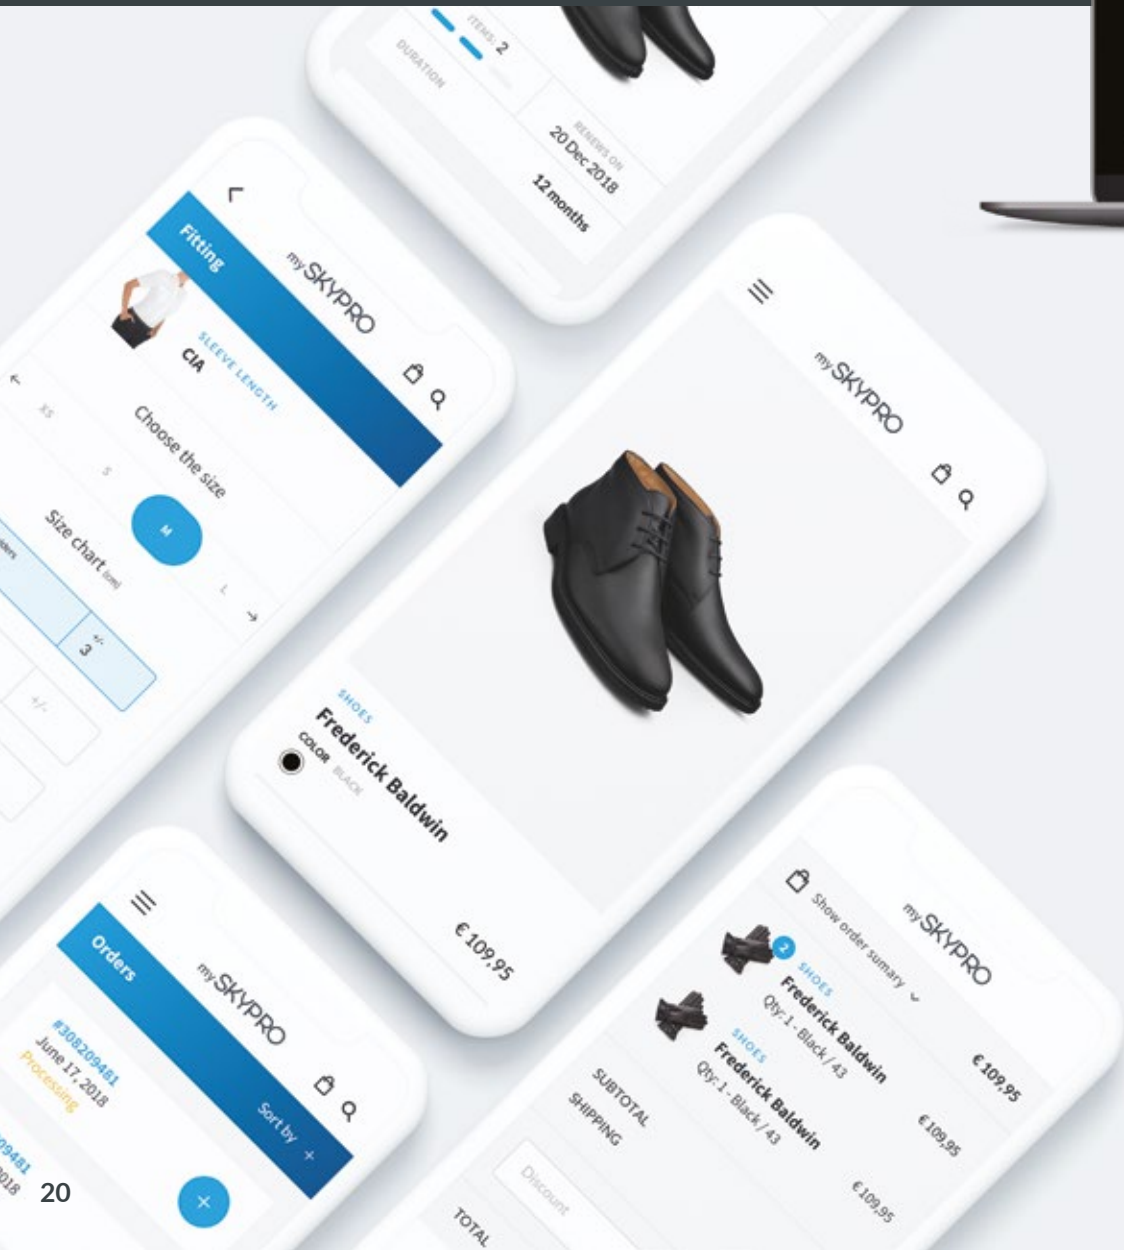

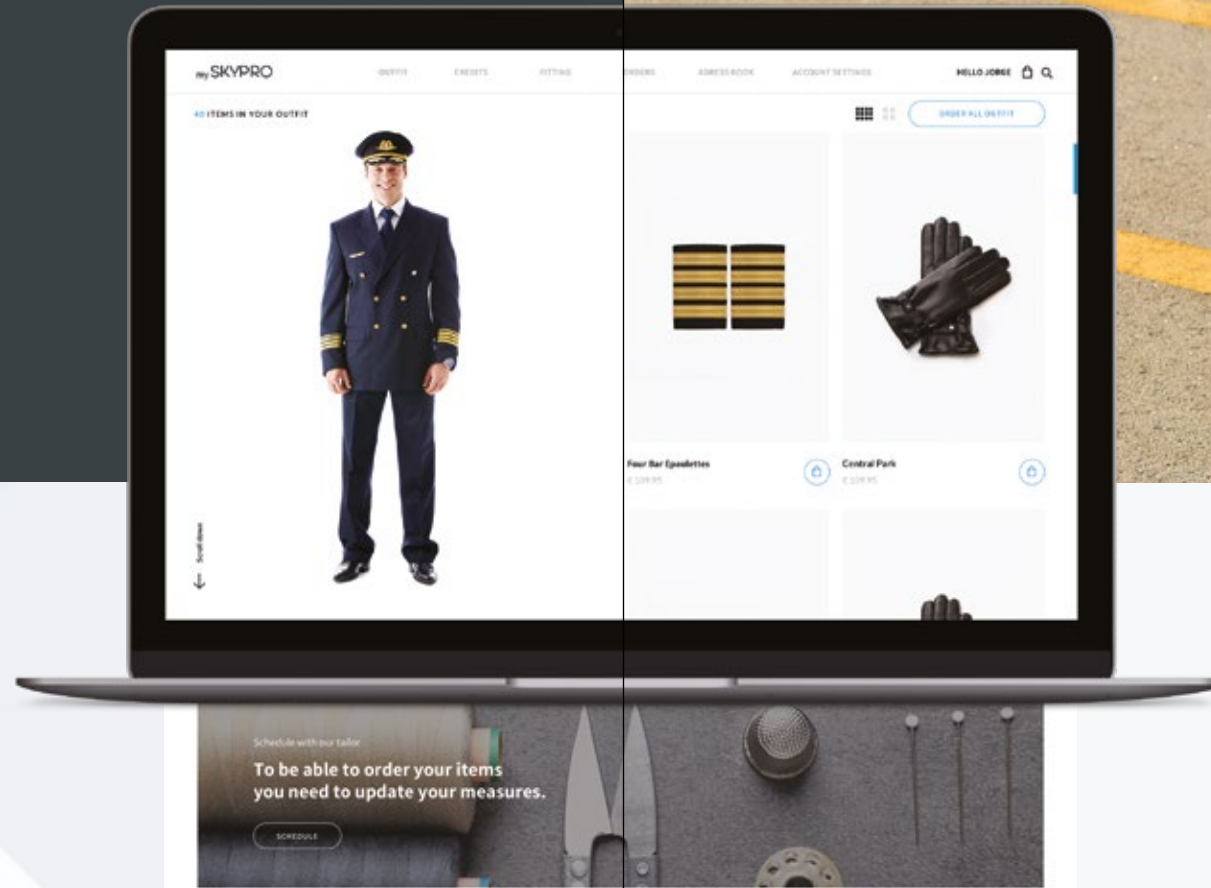

With a very deep knowledge tied to crews' comfort and wellbeing, SKYPRO is connected to all innovations in the textile industry – Made in Portugal – offering cutting-edge technology that covers the whole distribution channel thus generating savings and efficiencies.

A Unique IATA Strategic Partner for Airline Uniforms, SKYPRO is recognized for standing right beside the airline industry for the past 15 Years, always with a high commitment to deliver nothing but excellence for your crews and your Airline.

A Powerful Tool

All SKYPRO's services and capabilities are integrated into MySKYPRO Portal, our newest development. With this powerful tool all airlines will be able to integrate not only all the backstage aspects such as the suppliers' management and order tracking as well as all the front stage aspects such as the delivery experience of the uniform and the grooming of your crews.

MADE IN PORTUGAL

Our home is also the home
of fashion quality.

SKYPRO products are included in world advanced Cluster of Textile industry. All our products are made in Portugal, where footwear and textile industries are recognized for their quality and innovation. Portuguese Textile industry is one of the largest of Europe. The recognition this Industry allows SKYPRO to work with the best and latest fibers, yarns, fabrics and with a highly educated and committed work-force. During the last years the "Made in Portugal" expression have been on the rise not only in textiles but also in footwear where the leather manufacturing heritage is gaining power.
